- c. Not more than **five set lines** with no more than 10 hooks per set line.

All legal equipment used by a noncontract commercial fishing licensee must have at all times permanently attached to it a valid tag provided by the Department. The entire set line, except for the ends used for anchoring, must be below the water level at all times. All set lines must be pulled and checked at least once every 48 hours.

Open Areas: Only the following areas are open to noncontract commercial fishing:

- a. That portion of the Lake Oahe and the Missouri River from where the electric transmission line crosses Lake Oahe north of Beaver Bay to the Leland Olds Power Station/UPA boat ramp (**with seines and hoop nets only**);
